Repair Matrix

The following table is an illustrative guide as to who is responsible for the various types of repairs. It is not exhaustive but covers the vast majority of repairs. It sets out the repairs tenants are obliged to carry out and those that North Tyneside Homes is obliged to complete as the landlord.

Repair Responsibilities

Tenants have a responsibility under their tenancy agreement to take care of their home. They are responsible for the cost of any repair resulting from wilful or negligent damage caused by them, their family, their visitors or pets, regardless of who is responsible to carry out the repair. They also have a responsibility to report in a timely manner, any repairs that are the obligation of the landlord to carry out, in order to prevent any further consequential damage.

This matrix should be considered in conjunction with further advice given in the 'Repairs Handbook'.

Aids and adaptations

Item
Adaptations for disabled people
as a result of recommendations
by Social Services
