Transport Planning & Fighways	0,775	6,836	60	-4,797	-4,681	110	1,978	2,155	170	The main pressures are an unachievable income target on traffic safety schemes and Engineers' Fee Recovery	100
										Income.The service relies on recharging an element of	
										their costs to capital schemes and the Local Transport	
										Plan Capital Grant has been reduced substantially.	
Planning	1,216	1,622	406	-761	-763	-2	455	859	404	The pressure on this budget is mainly due to the forecast	386
										cost of employing external consultants for planning	
										appeals, and associated costs if awarded against NTC.	
										The pressure primarily relates to Whitehouse Farm where a Public Inquiry in October may agree on a full cost award	
										against NTC, which, is estimated at £0.352m but could be	
										higher. The service is running with a full complement of	
										staff therefore is not meeting the council-wide vacancy	
										target.
