1	C A Crerrar	Backworth Park School	Staff	29.01.14	In favour	As head teacher the proposals for the new location of the existing Bacworth Park Primary would afford up to date purpose built accommodation that would better meet the needs of our pupils, whether current or future.. Th provision of dedicated sports area will enhance the capacity for a range of curricular and extra ehancement opportunities. A new building would attract new families and broaden the pupil demographic considerably.
2	A Phillips	Backworth Park School	Staff	29.01.14	In favour	It would be wonderful for the local children to have good quality outdoor space of school in which to play. A school with space for support staff to work with small groups. It would also be wonderful as our current school is short of such space. Safe access to school for children is essential and for the children and parents to feel safe walking to school. I don't think that this is the case presently.
