Commissioned Services - Learning Disabilities and Mental Health	24,274	27,233	2,958	-8,211	-9,393	-1,182	16,064	17,840	1,776	This area includes all externally commissioned services for adults under 65 years with a learning disability or mental health need. There has been a significant net increase in individuals supported in recent years and an increase in average levels of complexity and challenging needs. The overspend relates mainly to Learning Disability placements. There are net Creating a Brighter Future targets of £0.516m allocated to this service area. The service is confident that the required actions to deliver these savings are on track however forecasts have not been adjusted for savings expected to accrue in the second half of the year. There is a potential pressure within Mental Health services where the Clinical Commissioning Group have signalled their intention to withdraw £0.442m of funding relating to Mental Health Resettlement costs. Forecasts have been adjusted to reflect a proportion of this (£0.100m) in line with timescales around decommissioning affected services. The use of personal budgets continues to encourage more innovative ways of meeting needs however, the service will continue to be subject to on-going demand led pressures.</p> <p>This service area includes all externally commissioned services for adults 65 years and over and for adults under 65 years who have a physical or sensory disability. The service rigorously challenges the care planning process to ensure that residents are, where appropriate and cost effective, supported to remain at home. This has resulted in a reduction in permanent admissions to residential care and the maintenance of an underspent position. Physical Disability Services are showing an overspend of £0.388m but this is more than offset by underspends in Older People's services (£0.917m) and other commissioned services (£0.344m). The movement from July's position is mainly due to funding for the implementation of the Care Act, which was previously shown in the Central service area, being formally allocated across service areas.</p> <p>The service area has net Creating a Brighter Future targets of £0.814m allocated and is confident that the required actions to deliver these saving are on track however, at this early stage in the year, forecasts have not been adjusted to assume cost reductions will be fully delivered.</p>	-553
