

Dear Sir,

I strongly object to open land having houses built on at the bottom of Brook St. We had a lovely flower garden there and shelter till the road was built on it which should never have happened. Now we have the Beekeeper & Premiere Hotel car park coming with cars on to this road with traffic both ways. Buses and cars trying to cut across to Park Ave. We certainly don't need any more cars.

Residents here have problems with their parking. We are going to lose our sea view & the light house we don't need any more houses here. Health & safety comes first.

Yours, sincerely
