CIPFA Treasury Management Code of Practice - Treasury Management  
Policy Statement**

CIPFA recommends that an organisation's Treasury Management Policy Statement adopts the following form of words to define the policies and objectives of its treasury management activities:

1. North Tyneside Council defines its treasury management activities as: "The management of the organisation's cash flows, its banking, money market and capital market transactions, the effective management of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."
2. North Tyneside Council regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on their risk implications for the organisation, and any financial instruments entered into to manage these risks.
3. North Tyneside Council acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives. It is therefore committed to the principles of achieving value for money in treasury management, and to employing suitable comprehensive performance measurement techniques, within the context of effective risk management.
