Commentary:
It is expected that the Academy proposals would impact on John Spence High School.
Data suggests a $6 \%$ decline in pupil numbers.
This decline will equate to approximately 50 pupils / two classes across the school
John Spence is also likely to be further impacted by the 'external' applications to the additional places ay Year 7.

Commentary:
A 13-18 School.
Additional school places will be added into the system at Year 9 for the first two years following the opening of the new Academy. This will have a detrimental impact on the 3 tier system in particular Monkseaton High School.
A potential destabilising impact on Year 9 admissions in to the 13-18 system.
By 2014/15 pupil numbers are projected to fall below 500 .

[^0]:    Data suggests that historically 87\% of Priory Primary pupils have transferred to Marden High School.
    The impact of the Kings Priory proposals on Marden High School are likely to have a significant detrimental impact on the school.
    The reduction equates to $30 \%$ of the current school population.
    In addition, Marden High School is likely to be impacted by the 'external' applications to the additional places at Year 7.
    A potential reduction of 264 pupils over the next 5 years.
