Early Help and Vulnerable Families	7,870	8,027	157	-5,741	-6,078	-337	2,129	1,949	-180	The position is net of a forecast overspend in relation to the Childcare Service, including costs for the two north west nurseries up until 31st August 2015 (they have now transferred to the schools). The improvement since the January position is in relation to income for the childcare settings being £0.035m higher than original estimated, £0.063m improvement within Youth Services re reduced expenditure and removal of ringfencing of Youth Justice Board funding, £0.035m improvement within Supporting families re reduced expenditure, and £0.008m additional grant income received in relation to the Troubled Families Payments by Results grant.	-27
Employment and Skills	5,233	5,342	109	-4,410	-4,446	-36	823	896	73	Many services have historically been funded by specific individual grants, mainly from the Department for Education and it was appropriate to ensure these grants made a contribution to service overheads. An income expectation of £0.275m had therefore historically been built into budgets. Whilst the service identified £0.277m of contributions in 2014/15, the majority of this was from one-off sources which were not available in 2015/16. This has been partially offset by staff savings. The improvement from the January report relates to European Social Fund Not in Education, Employment or Training (ESF NEET) funding.	125

It also includes Care Coordination, Support Planning &amp; Brokerage and the hospital based Reablement Discharge Team. These teams reported a total under spend of £0.693m due to vacancies and staff on lower incremental points. The service rigorously challenges the care planning process to ensure that residents are, where appropriate and cost effective, supported to remain at home. This has resulted in the maintenance of an under spent position. Physical Disability Services are showing an over spend of £0.384m but this is more than offset by under spends in Older People's services (£0.643m), other commissioned services (£0.559m) and financial services (£0.066m).</p> <p>The change from January's position is due to an adjustment being made for clients with Deferred Payment Agreements and is related to the introduction of a universal deferred payment scheme under the Care Act. This adjustment reflects client contributions which will be received by the council on sale of a property.</p>	-1,120
