

## Cabinet Response to Overview and Scrutiny Recommendations Completed Action Plan

### Carers' Support and Respite Provision

In accordance with Section 122 of the Local Government and Public Involvement in Health Act 2007, Cabinet is required to provide a response to the recommendations of the Overview, Scrutiny and Policy Development Committee within 2 months. In providing this response Cabinet is asked to state whether or not it accepts each recommendation and the reasons for this decision. Cabinet must also indicate what action, if any, it proposes to take.

<b>Overview and Scrutiny Recommendation</b>	<b>Officer Commentary</b>	<b>Cabinet Decision (Accept or reject)</b>	<b>Action to be taken (if any) and timescale for completion</b>
<b>Recommendation 1:</b> That North Tyneside Clinical Commissioning Group and the Council's Adult Social Care continue to work with primary care services and GPs to increase the number of carers identified, receiving an assessment and timely advice and information.	Data from ASC for the year 2015/16 shows an increase in the number of carers supported during the year and a significant increase in those carers offered information and advice, with nearly 2,000 carers supported in the year.	Accept	Continued development of the SIGN network, which plays a key role in the information and advice offer in North Tyneside over the course of 2016/17.  NT CCG is now a member of the SIGN network,
<b>Recommendation 3:</b> That North Tyneside Clinical Commissioning Group and the Council's Adult Social Care, explore opportunities to produce signposting information, similar to the laminated key, for distribution by GP practices.	This is an important part of the offer to service users and carers and as part of the Target Operating Model to give the right information to help people to help themselves.  The Carers Centre has progressed (and is funding) the idea of a laminated key which will be available for GP's to distribute. This has been well received and some GP practices have requested additional training/support on carers identification and support from the Carers Centre.	Accept	The Local Authority is working in partnership with NT CCG and SIGN to pilot an approach to information, advice and signposting. This approach will look to develop a service directory to collate and share the universal wellbeing services and supports that are abundant within the community.

<p><b>Recommendation 7:</b> That Cabinet ask the Head of Health, Education, Care and Safeguarding, to explore how the adult carers' assessment can be strengthened, to ensure that carers understand the emergency procedures.</p>	<p>Undertake a review of the use and implementation of the parent carer assessment within the current assessment process, including Early Help Assessment.</p> <p>As a result of the introduction of the Care Act there was an opportunity to look at strengthening the Carers' Assessment pathway, to ensure that the Carers' assessment met the new statutory requirements of the Act, and that Carers found the Assessment process a helpful and supportive one. We worked with Carers in undertaking the preparatory work for the Care Act, to ensure that the assessment met with Carers' expectations and that regardless of whether a Carer had an assessment jointly with the person they care for, or a stand alone assessment, the same ethos and approach was applied.</p> <p>We have also worked with the Carers Centre and have commenced a pilot of a new approach to Carers' assessments</p>	<p>Accept</p>	<p>Identify the good practice required in the assessments of parent / carers of disabled children in line with the Care Act.</p> <p>Audit a selection of assessments to monitor compliance with good practice</p> <p>Make recommendations to social work teams and monitor ongoing progress through 6 monthly themed audits August – September 2016</p> <p>Care Act actions were completed as part of the introduction of the Care Act (April 2015).</p>

	<p>and access to support, with the Carers' Centre taking on a much greater role. Gateway can now make direct referrals to the Carers' Centre who will complete a first stage assessment and only refer on to ASC where there is an identified need. Carers can access the wide range of support that the Carers' Centre provides without the need of a statutory assessment. We believe these changes will strengthen the offer to Carers and help to streamline and join up the support offered by the Carers' Centre with the Statutory Social Care offer.</p> <p>Planned training for the ASC teams will in future also include specific information about identifying and supporting carers, including contingency planning. Initial meetings have been held to explore the possibility of also developing some online training in relation to carers.</p>		<p>Pilot scheme developed Oct 2015 – June 2016</p> <p>Pilot launched June 2016</p> <p>Initial Evaluation to be completed December 2016 and new model of support agreed.</p>
<p><b>Recommendation 8:</b> That Cabinet ask the Head of Health, Education, Care and Safeguarding, to re-launch the Carers' Champion and the Carers' Charter.</p>	<p>The Carers Champion role was re-launched during Carers Week in June, and initial interest has been good. It is now our intention to request new Carers Champions are identified in each of the ASC</p>	<p>Accept</p>	<p>Actions completed</p> <p>Carers champions being identified</p>
